A Medical Assistant works in a physician or other health practitioner's office, and is considered an indispensable force. A Medical Assistant performs a variety of administrative and clinical tasks, and is a career with growth potential. Gurnick Academy of Medical Arts students will be taught the principles of front and back office medical assisting, anatomy & physiology, nutrition, phlebotomy, and financial aid.

The Phlebotomy portion of the program combines forty (40) hours classroom instruction with forty (40) hours off-site externship to provide a comprehensive learning experience. Lectures include but are not limited to the anatomy and medical terminology pertaining to the circulatory system, specimen collection, risk factors, complications, and quality assurance in specimen collection. Practical instruction provides hands-on training in venipuncture with procedures verified through a skills check-off system. The forty (40) hour externship includes at a minimum 10 skin punctures and 50 successful venipunctures.

- Institutionally Accredited by the Accrediting Bureau for Health Education Schools.
- Approved to operate by the California Bureau for Private Postsecondary Education.

MA with Phlebotomy Program Highlights:
- 10 month intensive program including national CCMA exam preparation and testing
- Experienced Instructors
- Patient care lab equipped with examination tables, phlebotomy, spirometry, EKG, autoclave, and other patient care equipment.

Financial Aid Assistance for those that qualify
Private Loan Assistance
Employment Assistance

Our Medical Assistant with Phlebotomy Program provides didactic and laboratory training as well as an externship that correlates with the theoretical knowledge. The national CMA exam is taken during the program upon successful completion of didactic coursework. Students who pass this exam and meet graduation requirements will be eligible to work as Certified Medical Assistants in hospitals or medical clinics.

Our Program Curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. Subjects covered include Anatomy & Physiology, Medical Terminology, Administrative Medical Assisting, and Clinical Medical Assisting.

Our Campuses conduct courses in classrooms equipped with modern audio-visual teaching aids, anatomical charts and models.

Our Externship occurs at the end of the program. Students will receive experience in an outpatient healthcare setting. Externship is provided for all of our students.

Our Medical Assistant with Phlebotomy Program is offered at the San Mateo, Concord, & Fresno Campuses:
