

Associate of Science in Nursing

at Gurnick Academy of Medical Arts

Gurnick Academy of Medical Arts offers a six semester program for non-nursing applicants. For applicants with an LVN license and completed GE courses, the program can be completed within 33 weeks (2 semesters and a 3 week LVN to RN transition course). Students will study a wide variety of curricular content required for licensure by the California Board of Registered Nursing. Students will study fundamentals of nursing and required technical skills, health assessment, pharmacology, critical children and families and psychiatric/mental health nursing. An advanced medical surgical / leadership course is offered in the final semester of the program to reinforce previous learning. As well, students will take an NCLEX preparation and remediation course to prepare for RN licensure.

- ✓ Approved by the California Board of Registered Nursing
- ✓ Institutionally Accredited by the Accrediting Bureau for Health Education Schools.
- ✓ Approved to operate by the California Bureau for Private Postsecondary Education.

Our Associate Degree in Nursing Program aims to motivate and educate undergraduate nursing students to meet the healthcare needs of individuals, families, and communities. This program supports the ongoing need to assist the nation's professional development of nurses and to heed the call to provide opportunities to continue the cycle of learning.

Our Program Curriculum incorporates evidence-based nursing knowledge, ethics and law in health care, patient education, and sound clinical judgment into our educational paradigm. Our Associate Degree in Nursing Program includes didactic and clinical training. Clinical coursework includes the following core nursing requirements in the six semester program: Fundamentals of Nursing, Introduction to Medical-Surgical Nursing, Intermediate Medical-Surgical Nursing, Advanced Medical-Surgical Nursing, Maternal/Newborn Nursing, Pediatric Nursing, Mental Health Nursing, Complex Medical-Surgical Nursing and Leadership. Emphasis is placed on evidenced-based practice and critical thinking skills in the provision of safe and effective care to patients from diverse and multicultural populations and communities across the life span.

Our Associate of Science in Nursing is currently offered at the **Fresno Campus**.
