

Bachelors of Science in Diagnostic Medical Imaging

at Gurnick Academy of Medical Arts

Gurnick Academy of Medical Arts offers a 4-semester distance education program for certified imaging professionals with foundational skills necessary to advance within their profession. Students can choose an emphasis in Administration, Education, or Imaging Informatics. For the core of the program, students will study the organization and function of health services, ethics and law in health care, writing skills for health professionals, leadership and management, and essentials of patient education. Each track is designed to provide the student with focused courses on that area of study. Upon completion of the program, students will receive a Bachelor's degree which will make it possible to advance in their chosen field.

- ✓ Institutionally Accredited by the Accrediting Bureau for Health Education Schools.
- ✓ Approved to operate by the California Bureau for Private Postsecondary Education.

Our Bachelor of Science in Diagnostic Medical Imaging Program offers advancement for technologists who are unable to attend traditional college. Registered imaging professionals who have obtained an unrestricted license may earn up to 65 semester credit hours of advanced standing.

Our Program Curriculum provides students with the technical and interpersonal skills necessary to succeed in this field. Students will develop requisite skills to function in advanced roles within the imaging community. The program offers a variety of subject content including courses designed to prepare students for advanced level examinations in Administration and Imaging Informatics.

Our Bachelor of Science in Diagnostic Medical Imaging is currently offered at **Concord Campus** via Distance Education.
