Our B.S. in Nursing Program includes academic training as well as a clinical component that correlates with the theoretical knowledge. There are two clinical courses: Community Health Nursing Clinical and Leadership/Management in Nursing Clinical.

Our Program Curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. Emphasis will be placed on evidenced-based practice and critical thinking skills in the provision of safe and effective care to patients from diverse and multicultural populations and communities across the life span.
