CHANGES & UPDATES TO PUBLISHED INFORMATION

STATEMENT OF HISTORY & OWNERSHIP

Page 11

March 2024

The Joint Review Committee on Education in Nuclear Medicine Technology (JRCNMT) grants the Associate of Science in Nuclear Medicine Technology Program accreditation at our Concord Campus with a 5-year award.

March 2024

Commission on Accreditation for Respiratory Care (CoARC) grants our Associate of Occupational Science in Respiratory Care Program provisional accreditation at our Modesto Campus.

January 2024

ABHES approves the Associate of Science in Physical Therapist Assistant program at the Fresno Campus.

PROGRAM OFFERINGS

Page 17

Kindly note that not all programs are available at each campus. For more details, please see the Program Offerings per Campus (Table 1).

Table 1. Program Offerings per Campus

Program Types and Names	Campus Location
Degree Programs	
Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT)	Sacramento, San Jose
Associate of Occupational Science in Radiologic Technology (A.O.S. in RC)	Modesto
Associate of Occupational Science in Radiologic Technology (A.O.S. in RT)	Van Nuys
Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT)	Fresno, Sacramento, San Jose
Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT)	San Jose
Associate of Science in Magnetic Resonance Imaging (A.S. in MRI)	Modesto, Sacramento, San Jose

Revised by: Gurnick Academy of Medical Arts Process Department Effective Dates: January 1, 2024, to December 31, 2024 Date of Revision: March 15, 2024

Associate of Science in Nuclear Medicine Technology (A.S. in NM)	Concord (via Distance Education)
Associate of Science in Nursing (ADN)	Fresno
Associate of Science in Nursing (LVN to ADN)	Fresno
Associate of Science in Physical Therapist Assistant (A.S. in PTA)	San Jose, Fresno
Associate of Science in Radiologic Technology (A.S. in RT)	Concord, Sacramento
Associate of Science in Vocational Nursing (A.S. in VN)	Fresno
Bachelor of Science in Diagnostic Medical Imaging (B.S. in DMI)	Concord (via Distance Education)
Bachelor of Science in Nursing (BSN)	Concord
Bachelor of Science in Nursing (LVN to BSN)	Concord
Bachelor of Science in Nursing (RN to BSN)	Concord (via Distance Education)
Bachelor of Science in Radiation Therapy (B.S. in RT)	Van Nuys (via Distance Education)
Master of Science in Nursing (BSN to MSN)	Concord (via Distance Education)
Diploma Programs	
X-ray Technician with Medical Assistant Skills (XTMAS)	Concord, Sacramento, Van Nuys
Vocational Nurse (VN)	Concord, Fresno, Modesto, Sacramento, San Jose
Certificate Programs	
Bone Densitometry Technician (DXA)	Sacramento
Dental Assistant (DA)	Modesto
Medical Assistant (MA)	Concord, Fresno, Modesto
International Courses	
International Nurse Graduate Course (ING)	Fresno
Continuing Education Courses	
CPR Course for Basic Life Support (CPR)	All
IV Therapy/Blood Withdrawal Course (IVBW)	Concord, Fresno, Modesto, Sacramento, San Jose
LVN to RN Transition Theory & Lab Course	Concord, Fresno
Essential Medical Bioscience (EMB)	Concord, Fresno, Modesto, San Jose
Magnetic Resonance Imaging (MRI) Intravenous (IV) Blood Withdrawal Course	San Jose

ACCREDITATION, APPROVAL, RECOGNITION, MEMBERSHIP

Page 19

Associate of Occupational Science in Respiratory Care Program

The Associate of Occupational Science in Respiratory Care Program, 200665, at the Modesto campus holds Provisional Accreditation from the Commission on Accreditation for Respiratory Care (www.coarc.com).

This status signifies that a program with an Approval of Intent has demonstrated sufficient compliance with the Standards (through submission of an acceptable Provisional Accreditation Self-Study Report (PSSR) and any other documentation required by the CoARC, as well as satisfactory completion of an initial on-site visit, to be allowed to admit students. It is recognized as an accredited program by the National Board for Respiratory Care (NBRC), which provides enrolled students who complete the program with eligibility for the Respiratory Care Credentialing Examination(s). The program will remain on Provisional Accreditation until it achieves Continuing Accreditation.

For more information about CoARC, please visit www.coarc.com. Contact information for Commission on Accreditation for Respiratory Care (CoARC): 264 Precision Blvd., Telford, TN 37690, (817) 283-2835.

Associate of Science in Nuclear Medicine Technology Program

The Associate of Science in Nuclear Medicine Technology Program is programmatically accredited by the Joint Review Committee on Education in Nuclear Medicine Technology (JRCNMT). Contact information for The Joint Review Committee on Education in Nuclear Medicine Technology is 820 W Danforth Road, Suite B1, Edmond, Oklahoma, 73003, (405) 285-0546, email: mail@jrcnmt.org, www.jrcnmt.org

The Associate of Science in Nuclear Medicine Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the above-mentioned programs can sit for the ARRT® (N). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive, St. Paul, MN 55120, Phone: 651-687-0048.

The Associate of Science in Nuclear Medicine Technology Program is recognized by the Nuclear Medicine Technology Certification Board (NMTCB). https://nmtcb.org/exams/nuclear-medicine/schools. Graduates from the above-mentioned program may sit for the NMTCB entry-level exam. Only graduates from schools who hold programmatic accreditation are eligible to sit for the NMTCB entry-level exam. For more information about NMTCB, please visit www.nmtcb.org. The NMTCB is located at NMTCB, 3558 Habersham at Northlake, Building I, Tucker, GE 30084-4009, Phone 404-315-1739.

GENERAL ADMISSION REQUIREMENTS FOR ALL PROGRAMS

Page 26

Test of Essential Academic Skills (TEAS®)

The Test of Essential Academic Skills (TEAS®) measures essential basic skills in the academic content domains of reading, mathematics, science, and English and language usage. The test is intended for use primarily with adult 27 nursing program applicant populations. The objectives assessed on TEAS® VII* are those that nurse educators deemed most appropriate and relevant to measure the entry-level academic readiness of nursing program applicants.

The TEAS exam is proctored remotely by ATI, and the cost for this exam is \$120 per individual test taker. Applicants are allowed two (2) attempts a year starting from the first exam's original date. Results are valid only for one year. All students are encouraged to log on to www.atitesting.com for study material and other useful resources and information.

For the A.S. in Nursing and B.S. in Nursing programs, the score on the most recent attempt will be accepted for the A.S. in Nursing and B.S. in Nursing.

Breakdown of test subjects (by the percentage of the entire test):

- o Reading 28%
- Mathematics 20%
- Science 32%
- English and Language Usage 20%

ADDITIONAL ADMISSION REQUIREMENTS PER PROGRAM

Master of Science in Nursing Program (BSN to MSN Pathway) Page 54

Table 17. BSN to MSN Admission Point System

Criteria	Possible Points
I. Academic Achievement: Undergraduate Level Courses	20
A. GPA	
• GPA 3.00-3.59	10
• GPA 3.60-4.00	20
II. Post-Secondary Education	20
Baccalaureate Degree	10
Graduate/Master's Degree	20
III. Application Essay to Nursing Program – APA Format	10
The essay will include:	
Statement of purpose for enrolling into the MSN program	2
The essential functions and role of a graduate degree nurse	2
 Preparation to become successful in the MSN program 	2
 Accountability and integrity in the nursing profession 	2
Grammar	2
IV. Health Care Background	5
 One to three (1 – 3) years 	3
More than three (3) years	5
V. Personal Interview	20
Professionalism	4

VI. Evaluation from the Office of Admissions	5
Professionalism	1
Timeliness	1
Communication	1
Compliance with the requirements	1
Self-Motivation	1
Possible Total Points:	80

ADVANCED PLACEMENT & CREDIT GRANTING

Page 75

There is no charge for the review of transfer credit or experiential learning. Students will receive a written evaluation of credits, either accepted or denied. Credit granting is only available before enrollment. Credit granting will not be evaluated once a student is enrolled. All decisions on transfer credit or experiential learning are final; appeals are not accepted. Students can be granted credit up to 49% of the total hours in certificate and diploma programs and up to 75% of the total hours in degree programs. Credit Granting will be awarded according to program, state, and academy policies.

Transfer credits for General Education courses may be granted regardless of when they are completed. Transfer credit towards a certain program, experiential learning, challenge examinations, and achievement tests may be given for previous related education if the credits were granted within the last five (5) years from an institution accredited by an agency that is recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA) and the student received a course grade of 'C' or higher.

For semester-based programs, of the first 60 semester credits awarded to a student in an undergraduate program, no more than 15-semester credits may be awarded for prior experiential learning. Of the second 60 semester units (i.e., credits 61 to 120) awarded to a student in an undergraduate program, no more than 15 semester credits may be awarded for prior experiential learning.

PROGRAM SPECIFIC LICENSURE, CERTIFICATION & REGISTRY DISCLAIMER

Page 84

Associate of Science in Nuclear Medicine Technology Program (A.S. in NM)

In California, practicing nuclear medicine technologists must have an active Certified Technologist, Nuclear Medicine (CTNM) certificate. The California Department of Public Health, Radiologic Health Branch, offers the certificate. Once certified, the nuclear medicine technologist can legally practice within California.

Both the ARRT® and NMTCB require applicants to disclose any history of criminal or misdemeanor proceedings. Students may choose to contact the ARRT® and/or NMTCB to conduct a pre-application review to determine if they will be eligible to sit for the exam(s) upon graduation.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

ALUMNI GRANTS & SCHOLARSHIP

Page 95

Students who graduate from one Gurnick program and enroll in additional programs may qualify for an alumni grant or scholarship as specified by Gurnick Academy of Medical Arts. The grants or scholarships are tied to specific programs, and the amount of grant or scholarship given per program varies. Please speak with an Admissions Advisor for details.

Programs that offer alumni grants are as follows:

• BSDMI: RT Grad (\$2,000)

LVN-ADN: VN Grad (\$16,468)

LVN-BSN Program: VN Grad (\$19,000); ASVN Grad (\$3,000)

RN-BSN Program: ADN Grad (\$1,800)

VN Program: MA Grad (\$1,500)

MSN: BSN Grad (\$1,800)

Programs that offer scholarships are as follows:

• Any Full Imaging Program to Another Full Imaging Program: Varies per year with a max of \$10,000 for a single recipient. The deadline to apply is December 1st for the following year.

ACADEMIC PROBATION/REMEDIATION

Page 159

Additional information for Associate of Science in MRI (A.S. in MRI), Associate of Science in Physical Therapist Assistant (A.S. in PTA), Associate of Science in Radiologic Technology (A.S. in RT), Associate of Occupational Science in Radiologic Technology (A.O.S. in RT) and Programs

Students in the Associate of Science in Radiologic Technology Program, Associate of Occupational Science in Radiologic Technology Program, and Associate of Nuclear Medicine Technology Program may be placed on remediation only for a maximum of 2 courses per module and are not to exceed the total of two (2) times throughout the entire duration of the program.

Students may be placed on academic probation during any course (didactic, lab, or clinical evaluations) if their final score is 60% or greater. Students who score below 60% are not eligible for remediation.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the

Revised by: Gurnick Academy of Medical Arts Process Department Effective Dates: January 1, 2024, to December 31, 2024

expectations and failing to receive a passing grade for the course ultimately will result in the offer of a remedial action plan.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and completed the course in satisfactory academic standing. The student receives a final passing grade for the course after being placed on probation. This final grade will be reflected on the student's transcript.

Additional information for Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT), Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT), and Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT) Programs

Students in the Associate of Occupational Science in Ultrasound Technology, Associate of Occupational Science in Cardiac Ultrasound Technology, and Associate of Occupational Science in Vascular Ultrasound Technology Programs may be placed on remediation only for a maximum of one (1) General Education course (if applicable), or two (2) courses per quarter and are not to exceed the total of two (2) times throughout the entire duration of the program.

Students may be placed on academic probation during any didactic and laboratory course if their final score is 60% or greater. Students who score below 60% are not eligible for remediation. Clinical practicum courses cannot be remediated, and students who receive two unsatisfactory clinical practicum evaluations will be withdrawn from the program.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the expectations and failing to receive a passing grade for the course ultimately will result in the offer of a remedial action plan.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and completed the course in satisfactory academic standing. The student receives a final passing grade for the course after being placed on probation. This final grade will be reflected on the student's transcript.

Gurnick Academy of Medical Arts students in the Physical Therapist Assistant classroom at the San Jose campus.

A.S. in PTA Program Mission

The A.S. in Physical Therapist Assistant program aims to support the mission of Gurnick Academy of Medical Arts and is based upon the program's philosophy. The A.S. in Physical Therapist Assistant program will prepare and graduate students to meet our diverse community's growing needs.

The A.S. in Physical Therapist Assistant program strives to provide students with the necessary skills to enter the workforce as competent, thinking, respectful, and compassionate individuals. They will provide legal and ethical care within the standards of practice for Physical Therapist Assistants under a physical therapist's supervision.

A.S. in PTA Program Description

A.S. in Physical Therapist Assistant program graduates join an in-demand career in the growing healthcare field. Physical Therapist Assistants provide physical therapy services under the supervision of a licensed physical therapist, which is within the scope of practice for PTAs. They provide patients with instructions for therapeutic exercise and utilize therapeutic modalities that incorporate massage, stretching, selected manual therapy interventions, and using electrotherapies.

The program includes classwork, laboratory training, and clinical experiences correlating with theoretical education. The technical courses incorporate the minimum skills of Physical Therapist Assistant graduates at the entry level and the Standards of Ethical Conduct for the Physical Therapist Assistant developed by the American Physical Therapy Association (APTA).

Gurnick Academy of Medical Arts considers clinical experience essential for healthcare education. Accordingly, students are rotated throughout our affiliated clinical facilities while completing the Physical Therapist Assistant program.

PTAs must complete a 2-year associate's degree and are licensed, certified, or registered in most states.* *Source: American Physical Therapy Association.

Graduation from an accredited physical therapist assistant program allows the graduate to be eligible to take the National Physical Therapy Exam (NPTE) for PTAs and the California Law Exam (CLE). The student will be licensed to practice in California after successfully passing these exams. Please see the Accreditation, Approval, Recognition, Membership section for information about Gurnick Academy of Medical Arts' PTA program accreditation.

The Physical Therapist Assistant Program is an Associate of Science Degree program.

Effective Dates: January 1, 2024, to December 31, 2024 Date of Revision: March 15, 2024

A.S. in PTA Program Goals

- The program will offer a technical curriculum that is sequential, integrated, and reflective of contemporary Physical Therapist Assistant practice.
- The program will prepare graduates to provide physical therapy interventions in various settings within the PTA scope of practice and under a physical therapist's supervision.
- The program will prepare graduates to demonstrate ethical and professional behaviors consistent with California State Law and Practice Acts and the professional standards of practice.
- The program will employ faculty who demonstrate current knowledge in their teaching areas and are committed to professional standards of excellence.
- The program will prepare graduates to utilize self-assessment and awareness in communication, skills, knowledge, and behaviors with patients/clients, caregivers, colleagues, and other healthcare team members.

A.S. in PTA Philosophy

- Physical Therapists and Physical Therapist Assistants are valued members of today's healthcare team.
- Physical Therapists and Physical Therapist Assistants must understand their respective roles and respect them best to meet the patient's/client's needs.
- Students will benefit from a curriculum that supports multiple learning styles, is varied in educational experiences, and is structured to provide interaction between faculty and students.
- Students will benefit from a curriculum that recognizes, fosters understanding, and embraces diversity.
- Students will benefit from a curriculum that will react to changes in Physical Therapy knowledge and technology.
- To be successful as a Physical Therapist Assistant and meet the profession's needs, the student must understand learning as a lifelong activity.
- Clinical experience in various settings is vital for the student to acquire entry-level skills as a Physical Therapist Assistant.
- Physical Therapist Assistant students are adult learners. Gurnick Academy of Medical Arts expects them to take responsibility for learning, professional behavior, respect for others, and preparedness.
- Faculty members are positive role models in the profession of Physical Therapy.
- Gurnick Academy of Medical Arts does not discriminate against students based on race, color, creed, national origin, gender, sexual orientation, age, disability, or marital status.

General Education courses are identified in Italic

A.S. in PTA Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for more details.

The Physical Therapist Assistant program is an Associate of Science degree program. The program includes eight (8) General Education Courses, and eighteen (18) Physical Therapy Assistant focuses courses. Students with previous college courses equivalent to the General Education required can request an evaluation of their transcripts for credit transferred in.

Classes begin twice a year in January and July and are scheduled Monday through Friday full-time during the day. Clinical education assumes the Clinical Site hours during the day.

The A.S. in Physical Therapist Assistant program at the San Mateo campus enjoys a 1,776 sq. ft. classroom/laboratories equipped with industry-standard equipment found at typical Physical Therapy facilities. This includes cardio, modalities, balance, weights, and treatment tables. The classroom lecture instructor-to-student ratio is 1:20, and in the laboratory sessions, the ratio is 1:15. Clinical education is a crucial part of the PTA Program. Students have the opportunity for three (3) full-time clinical rotations at various types of Physical Therapy facilities located locally and out of state.

ASSOCIATE OF SCIENCE IN NUCLEAR MEDICINE TECHNOLOGY PROGRAM (A.S. IN NM)

Page 190

A.S. in NM Program Student Learning Outcomes

- Provide compassionate patient care.
- Perform diagnostic and therapeutic nuclear medicine exams accurately and efficiently.
- Adhere to radiation safety regulations and best practices.
- Display competency in preparing and handling radiopharmaceuticals used in nuclear medicine technology.
- Perform and analyze quality control procedures for various nuclear medicine imaging equipment types.
- Communicate effectively and professionally using verbal and non-verbal communication skills.
- Demonstrate ethical and professional behavior in a healthcare setting.

BONE DENSITOMETRY TECHNICIAN PROGRAM (DXA)

Page 219

DXA Program Information, Length, and Schedule

The program information, length, and schedule may change. Make sure to read the accompanying Addendum for changes and updates, and contact an Admissions advisor for more detailed information.

The Gurnick Academy of Medical Arts Bone Densitometry Technician Program provides a library and classrooms equipped with teaching aids, textbooks, journals, periodicals, and anatomical charts.

The Bone Densitometry Technician Program is a certificate program. The students will receive didactic, and clinical experience in affiliated medical facilities. The instructor-to-student ratio is as follows: online lectures 1:25, and clinical 1:1.

Classes may be scheduled Monday through Sunday. Students will attend a maximum of 40 hours per week of instruction, including didactic lectures, laboratory, and clinicals. A mandatory two-hour laboratory on campus is required before beginning clinical rotations. Clinical activities may be held during weekdays or weekends, and shifts may include day or evening as the clinical site requires. Didactic courses are held online between 8:00 AM to 10:30 PM. The program's affiliated clinical sites hold current state-issued certificates as approved clinical sites. The clinical sites provide supervised clinical instruction in the patient care setting. All clinical sites employ X-Ray Technicians or Radiologic Technologists and supervisors/operators (Doctors) who hold certification issued by the State of California Radiologic Health Branch.

The Bone Densitometry Technician Program consists of 4.0 quarter credit hours, completed over five (5) weeks for a total of fifty-six (56) contact hours. Day/Evening classes are currently scheduled for the program. Please refer to the course schedule for details. Before graduating, students must complete all didactic and clinical hours.

COURSE DESCRIPTIONS

Page 246

Associate of Science in Nuclear Medicine Technology (A.S. in NM) Courses – Blended, Full Distance Education Program

Revised by: Gurnick Academy of Medical Arts Process Department Effective Dates: January 1, 2024, to December 31, 2024

NM 111 - Patient Care in Nuclear Medicine - 100 Clock Hours/8 Quarter Credit Hours

Prerequisite: None

The course provides an overview of healthcare systems and the role of healthcare workers. Patient care principles and practices to include ECG monitoring, vital signs, blood collection, aseptic technique, and infection control will be discussed. Content provides concepts of patient education and considerations for the physical and psychological needs of the patient and their family members. An overview of the healthcare system is provided to outline the structure and functions of various departments within the hospital and outpatient setting. Students will achieve CPR certification.

NM 121 – Radiation Protection & Biology – 75 Clock Hours/7.5 Quarter Credit Hours

Prerequisite: Completion of module I with a "C" or better.

The course provides an overview of the principles of radiation protection. The responsibilities of the technologist for patients, personnel and the public are discussed. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies, and medical organizations are included. Principles of radiation interactions with molecules, cells, tissues, and the body, and the factors affecting biological response are presented including acute and chronic effects of radiation is provided. The management of a radiation safety program and regulations will be discussed.

NM 122 – Instrumentation in Nuclear Medicine I – 80 Clock Hours/8 Quarter Credit Hours

Prerequisite: Completion of module I with a "C" or better.

The course provides students with principles of non-imaging instrumentation used in nuclear medicine. The course focuses on the function, design, and quality control practices for gas-filled detectors, scintillation detectors, pulse-height analyzers, spectrometers, and counting systems. Nuclear counting statistics will be introduced.

NM 123 – Nuclear Physics – 60 Clock Hours/6 Quarter Credit Hours

Prerequisite: Completion of module II with a "C" or better.

Course provides a knowledge of general nuclear physics, atomic structure, and radiation concepts. Modes of radioactive decay, radionuclide and radiopharmaceutical production, interactions of radiation with matter, and radiation units and quantities are included. Decay factors, half-life, and activity calculations will be performed.

NM 131 – Nuclear Procedures I – 95 Clock Hours/8.5 Quarter Credit Hours

Prerequisite: Completion of module II with a "C" or better.

The course includes skeletal, pulmonary, and genitourinary imaging procedures. The course will review anatomy, physiology, and pathology for a variety of body systems and how they are imaged in nuclear medicine. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included.

NM 141 - Nuclear Procedures II - 60 Clock Hours/6 Quarter Credit Hours

Prerequisite: Completion of module III with a "C" or better.

The course includes gastrointestinal, central nervous system, endocrine, and cardiac imaging and non-imaging procedure. The course will review anatomy, physiology, and pathology for a variety of body systems and how they are imaged in nuclear medicine. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included.

Revised by: Gurnick Academy of Medical Arts Process Department Effective Dates: January 1, 2024, to December 31, 2024

NM 142 - Nuclear Pharmacy - 60 Clock Hours/6 Quarter Credit Hours

Prerequisite: Completion of module III with a "C" or better.

The course provides an overview of the operations and regulations of the nuclear pharmacy and the radiopharmaceuticals used in nuclear medicine. Radiopharmaceutical topics include the production methods, characteristics, and uses in nuclear medicine. Radiation safety regulations are included. Students will complete a project demonstrating knowledge of nuclear pharmacy operations and practices.

NM 143 – Principles of CT in Nuclear Medicine – 70 Clock Hours/7 Quarter Credit Hours

Prerequisite: Completion of module IV with a "C" or better.

The course provides students with principles related to computed tomography (CT) imaging. This course provides an overview of CT equipment, applications, quality control, injection techniques. Students will learn basic scanning parameters and principles of image quality. Mathematical equations specific to CT are included.

NM 252 - Principles of PET in Nuclear Medicine - 60 Clock Hours/6 Quarter Credit Hours

Prerequisite: Completion of module IV with a "C" or better.

The course provides students with principles related to positron emission tomography (PET) and PET hybrid imaging techniques in computed tomography (CT) and magnetic resonance imaging (MRI). This course provides instruction of PET radionuclide production, physics, instrumentation, and image fusion. Students will learn the oncologic, neurologic, inflammation/infection, and cardiac applications of PET imaging.

NM 271 - Nuclear Procedures III - 36 Clock Hours/3.5 Quarter Credit Hours

Prerequisite: Completion of module V with a "C" or better.

The course includes nuclear oncology, infection and inflammation, nuclear medicine therapies and miscellaneous imaging and non-imaging procedures. The course will review anatomy, physiology, and pathology related to these procedures. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included. An overview of image artifacts, normal and altered biodistribution, and normal and abnormal variants, as well as effects of protocol deviations for all nuclear medicine procedures will be included.

NM 281 - Nuclear Medicine Capstone - 36 Clock Hours/3.5 Quarter Credit Hours

Prerequisite: Completion of module VII with a "C" or better.

The course provides preparation for entry into the workforce. A comprehensive review of the program curriculum is included. Students will complete mock registry board exams. Students will be introduced to continuing education programs. Students will complete a capstone project.

Revised by: Gurnick Academy of Medical Arts Process Department Effective Dates: January 1, 2024, to December 31, 2024 Date of Revision: March 15, 2024

ACADEMIC CALENDAR 2024

HOLIDAYS FOR ALL CAMPUSES AND PROGRAMS*

January 1, 2024	New Year's Day	October 14, 2024	Indigenous Peoples' Day
January 15, 2024	Dr. Martin Luther King Jr. Day	November 11, 2024	Veterans Day
February 19, 2024	Presidents' Day	November 28 – November 29,	Thanksgiving Break
		2024	
May 27, 2024	Memorial Day	December 24, 2024	Christmas Eve
June 19, 2024	Juneteenth Day	December 25, 2024	Christmas Day
July 4, 2024	Independence Day	December 31, 2024	New Year's Eve
September 2, 2024	Labor Day		

^{*}Online courses are not subjected to the above Holiday schedule. Please refer to the course schedule once enrolled.
