X-Ray Technician with Medical Assistant Skills Program

students will use energized labs, digital imaging equipment, and anthropomorphic phantoms (hands, feet, knees, spine, chest, and more) to practice various radiographic procedures and experiments.

Clinical externships offer a diversified clinical experience with students rotating through varied facilities including physicians' offices, imaging centers, urgent care centers, and more.

Program graduates are also trained **to perform CPR and back-office patient care procedures.**

We are Accredited & Approved!

- ✓ Institutionally accredited by the Accrediting Bureau of Health Education Schools.*
- ✓ Approved to operate by the California Bureau for Private Postsecondary Education.**
- ✓ Programmatically approved by the California Department of Public Health, Radiologic Health Branch as a radiographer school.
